CONFIDENTIAL

Sir,

I feel obligated to write you this letter because the way your Agency handle the Bulgarian affairs years and years brought disappointmen and not good results instead enthusiasm and better results which can be achivied if your Agency was cooperating with right people.

Fifteen years ago your Agency used some members of the Bulgarian National Front, who were your paid informators as Baharoff, Slavoff and Gospodinoff and supported them financially to organize campagne against me in order to take over the leadership of the Organization and use it. After they did not succeed with blassing and financial support of your Agency these people formed a second Bulgarian National Front. I do not know what kind of help got from them, but the activities of these paid informators was not anti communistik - it was anti Docheff. The second Bulgarian National Front formed with your money continue to exist only because of the inspiration and financial support of your Agency. The activities of this second Front and the intervention of your Agency can never bring good results- in contrary - on the first place it damages the interests of the United States.

About eight years ago was organized second attack against me supported by your Agency. Kalin Koicheff and few people around him were recruited as your informators and inspired to try to split again my Organization and compromise me. The result of this second attack is - Koicheff and his few men now work in favor of the Communists. With the money of your Agency they organized Cultural Centers at the Churches, which are spreding communist propaganda and help the Communist Government of Sofia to seize the control over many Bulgarian Churches in the United States. This is the real result of the second attack against me and my Organization -The Bulgarian National Front.

Now for the third time your Agency organize new attack against me and my Organization. You recruited trough the back door

some members of my Organization from New York, Cleveland and Buffalo and inspired them to undermine my Organization and me from inside. I do not expect that the result will be favorable for your Agency but this is not the question. The question is :

Whom served those people of your Agency who years and years tried to destroy my Organization and me ? In no way they served the United States!

I am loyal American citizen. I support the United States Government. I am active work against Communism and fight the enemies not only for my old country but as well the enemies of the United States. I proved that I have quality and ability to be leader not only among my country men but on international level. I proved that I am excellent organizer and hard worker, the man with courage. And - I declared many times that I am willing to help you.

Instead to look for cooperation with me your Agency attacked me and want to destroy me ?

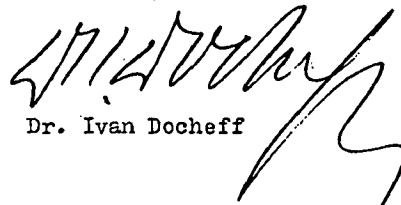

Regardless that I do not receive financial support from no-where also my Organization or our publications, I am still here, thirty years - with my authority and popularity.

What are those who you paid to undermine me ? How long they can exist if your Agency do not support them ? What result your Agency actually achieved with your present policy toward Bulgarians? Don't you think that you can get better results if you correct your present policy and start cooperation with right people - people who always was willing to help you like me?

I do not want this matter be publicly discussed therefore I am writing you and urge you to order investigation in order to be corrected the present policy of your Agency toward the work with the Bulgarians.

You can rely on my help.

Sincerely,

Dr. Ivan Docheff
